

## Continuing Education Information

Kentucky Department for Public Health Protection and Safety has approved ALL Education Sessions for Registered Sanitarian/Registered Environmental Health Specialist (RS/REHS) CEUs on an hour-by-hour basis.

### Additional Offerings with CEUs possible:

#### Wednesday, June 30, 2021

12:30pm Revenue and Profit Accelerator Playbook Workshop 3.0 Hours

#### Thursday, July 1, 2021

8:00am NOWRA One Day Installer Class\* 6.0 Hours

1:009m OSHA Wastewater Operator Confined Space Safety and Health Cert.\* 3.0 Hours

\* The NOWRA and OSHA Wastewater Operator Confined Space Safety and Health Cert Classes have been approved with the following stipulation. **These courses do not replace the required application and testing process for certification in Kentucky.** Each attendee (that chooses to become a RS/REHS in Kentucky) must still make application and pass the Registered Sanitarian Exam and Other Branch Program Exams which are given through the KY Public Health Branches, and be employed by a KY local health department.

### RS CEU Process:

- WWETT will send your attendance to Kentucky DPH.
- The information WWETT needs from each attendee to successfully submit training is:
  - Your license number (include this number when you register for the show in the Continuing Education section.)
  - **Attendee must be registered for each session they want credit for and scanned at the door to receive certificates of completion.**
  - You must sign in each day. One signature per day will suffice. Not necessary to sign in at each session.
- An email notification will be sent six weeks post show with instructions to download your certificates of completion for your records. *Note: RS/REHS are required to maintain 10 contact hours of Continuing Education per fiscal year.*
