

Continuing Education Information

Environmental Operators Certification Program (EOCP) for operators in British Columbia and Yukon will grant CEUs authorized by the Indiana DEM. They will not preapprove continuing education for the 2018 WWETT Show since the program takes place out of their jurisdiction. To receive continuing education credit operators should submit their certificates of completion with EOCP.

CEU Process:

- Attendee is responsible for submitting certificates of completion as proof of attendance.
 - WWETT will send an email notification approximately six weeks post show with instructions to download certificates of completion.
 - Attendee will download or print earned certificates and submit them to EOCP.
- *Note: Attendee must be registered for each session they want credit for and scanned at the door to receive certificates of completion.*
