

## Continuing Education Information

National Environment Health Association (NEHA) has approved up to 20.0 contact hours of continuing education credit for:

Course Title: 2018 WWETT  
Date: February 21-23, 2018  
Location: Indianapolis, IN

### Continuing Education Process:

- ***Attendee must be registered for each session they want credit for and scanned at the door to receive certificates of completion.***
- Attendee will pick up a NEHA Continuing Education Attendance Form at the entrance to the session(s) attended to help you track attendance.
- WWETT will send an email notification approximately six weeks post show with instructions to download certificates of completion.
- Attendee will download or print earned certificates. The number of earned hours for each individual session is on the certificate. Calculate the total number of hours you earned. This is the number of CE hours you should report to NEHA.
- Attendee will submit earned CE hours to NEHA online using the CE Online Submission process at <http://www.neha.org/CEweb/CE.asp>. *Note: 2018 WWETT is the course title. You will complete only one form. You won't complete a separate form for each session you participated in.*
- If you have any questions you can contact NEHA at 303-756-9090, ext. 328.
