- WE28 Back on Track – How to Have the Tough Conversations
- WE32 Operations and Management of Conventional Systems
- WE33 Rethink the Way We Approach Reuse
- WE34 Design of Time Dosing and Flow Equalization
- WE36 Troubleshooting Pumps, Panels and Switches with Digital Multimeters
- WE37 Happy Birthday! (Checklist for New Business Owners)
- WE38 Local Marketing Strategies to Find Prospects in Your Service Area
- WE39 Restroom Trailers A-Z
- WE40 2017 - Still a Man's World?
- WE42 Nitrogen Treatment in Alternative Systems
- WE43 Design of Pressure Distribution Systems
- WE45 Best Installation Practices for Trouble-Free Pump Controls
- WE46 I Never Saw THIS Coming! (Structure Your Business to be an Asset)
- WE48 How to Hire Great Employees (and keep them)
- WE50 Tips From Women in the Trade
- WE52 Operations and Management of Pumps
- WE53 Pathogen Treatment Guidance and Monitoring...
- WE54 Mound and At-Grade Design
- WE55 What's YOUR Problem? (Q&A for Wastewater Education 501(c)3 Experts)
- WE56 Content Marketing for Beginners...
- WE59 Pilot Test of the Bow Reactor - Innovative Technology for Nutrient Removal

Thursday, February 23, 2017

- TH01 Using Superior Customer Service to Separate Yourself from the Herd
- TH02 The Dreaded Flushables – Are They Really Flushable? Really?
- TH04 The Science Behind Failing Drainfields
- TH07 Using Digital Forms in the Field to Improve Efficiency
- TH08 Handling Grease Trap Wastes – Problems, Effects, and Solutions
- TH09 USDOT Cargo Truck Requirements
- TH10 Lessons Learned from a Third Generation Business Owner
- TH11 Superbugs: A Huge Challenge for Onsite Wastewater Treatment
- TH13 Control System Installation
- TH15 GPS Tracking "Hype vs Reality"
- TH16 Solids Handling & Reduction Choices in Wastewater
- TH17 Best Practices for Sonde and Pipe Locating
- TH19 Growing Your Business By Growing Your People
- TH20 Drugs in The Work Place (Illegal Dumping)
- TH22 Seeing is Believing – Using Data to Convince System Owners to Take Action
- TH25 Growing Need for Decentralized Sanitation Solutions
- TH26 Wastewater Microbiology
- TH27 Truck Specification and Maintenance for Maximum Profits

Friday, February 24, 2017

- FR02 Leak Detecting, Leak Locating and Water Loss Management
- FR03 Thrive! Making the Right Decisions to Improve Your Family's Portable Sanitation Business
- FR04 Excavations Don't Have to be Big to Cause BIG Problems
- FR05 Improper Dosing and Mound Failure
- FR07 IOT (Internet of Things) Technologies & What It Means to Your Fleet
- FR08 Effects of Supplemental Oxygenation Within the Aeration Process
- FR09 Don't Kill Your Golden Goose – Succession Strategies...
- FR10 Determining Remaining Useful Life with New Technologies
- FR11 The Five Essential Steps to Quality Service
- FR12 Know When and How to Choose Alternative (Advanced) Sewage Systems
- FR14 Grease Interceptors – Engineering with Confidence
- FR15 Designing Your Next Pump Truck for Maximum Value and Life
- FR16 7 Business Hacks for Female Entrepreneurs
- FR17 Who Is Your Customer and What Do They Want?
- FR19 OSHA Confined Space, Air Monitoring & Fall Protection Untangled
- FR20 Benefits of Whole System Monitoring
- FR24 Automate Your Equipment: Safety, Efficiency & Profitability via Wireless Controls

Continuing Education Process:

- WWETT will submit your attendance to Alabama Onsite Wastewater Board.
- The information WWETT needs from each attendee to successfully submit training is:
 - Your AOWB license number (include this number when you register for the show on the personal information page in the Continuing Education section.)
 - You must also be scanned at the door of each session.
- An email notification will be sent approximately six weeks post show with instructions to download your certificates of completion. Attendee will download or print earned certificates and keep on file for your own records. If you did not provide an AOWB license number when registering, you can submit your certificates of completion to AOWB for credit.
