

Continuing Education Information

Texas Commission on Environmental Quality (TCEQ) is offering:

- Up to 6 hours maximum for on-site sewage facilities (OSSF) licensees who attend OSSF presentations identified below in their entirety
- Up to 6 hours maximum for wastewater (WW) operators who attend wastewater presentations identified below in their entirety.

On-Site Sewage Facilities (OSSF) Approved Sessions (One-hour credit per session): Wednesday, February 22, 2017

- WE01 UV Cured Lining: Everything You Need to Know to Prepare for Your First Installation
- WE04 Plain and Simple: Understanding Pipeline Cleaning
- WE05 Understanding Pumps and Common Pumping Issues
- WE06 A Minute = A Lifetime: OSHA's Fatal Four
- WE07 2017 Hydro Excavation Trends: The New Industry Obstacles
- WE11 Pipe Bursting: A Diverse and Mature Trenchless Technology
- WE16 Practical Sizing Guidelines for Sump, Sewage and Grinder Pumps
- WE21 Overview of Lateral & Main/Lateral Connection Investigation & Rehabilitation Technologies
- WE24 How to Become the Go To Resource: Taking a Broader View of CCTV Pipeline Inspections
- WE27 Waterblasting Safety Devices and Use
- WE31 Maximizing ROI: When to Grout, When to Line, When to do Both
- WE35 Adding Trenchless Pipeline & Manhole Spot Repairs to Your Services
- WE36 Troubleshooting Pumps, Panels and Switches with Digital Multimeters
- WE41 Acoustic Inspection Implementation at New Castle County, DE
- WE44 Combination Unit Maintenance – How to Keep your Equipment Working
- WE47 Benefits with Automation
- WE51 Combating Inflow and Infiltration with Better Infrastructure Intelligence

Wastewater (WW) Approved Sessions (One-hour credit per session): Wednesday, February 22, 2017

- WE02 Inspection of ATUs for Operations and Maintenance
- WE03 Fundamentals of Onsite Wastewater System Design

WE06 A Minute = A Lifetime: OSHA's Fatal Four
WE12 Inspection of Media Filters
WE13 Reinventing the Toilet
WE14 Making Infiltration Decisions — Understanding Soil Surface Design
WE15 Oh No! Now What Do I Do? Specialty Pipeline Cleaning and Inspection
WE16 Practical Sizing Guidelines for Sump, Sewage and Grinder Pumps
WE22 Choosing the Right Alternative for the Job
WE23 Designing Pumps and Controls
WE25 Basic Electrical Theory as It Relates to Onsite Septic Controls
WE32 Operations and Management of Conventional Systems
WE33 Rethink the Way We Approach Reuse
WE34 Design of Time Dosing and Flow Equalization
WE36 Troubleshooting Pumps, Panels and Switches with Digital Multimeters
WE42 Nitrogen Treatment in Alternative Systems
WE43 Design of Pressure Distribution Systems
WE45 Best Installation Practices for Trouble-Free Pump Controls
WE52 Operations and Management of Pumps
WE53 Pathogen Treatment Guidance and Monitoring...
WE54 Mound and At-Grade Design

Training Credit Process:

- WWETT will send your attendance to TCEQ.
- The information WWETT needs from each attendee to successfully submit training is:
 - Your license number (include this number when you register for the show on the personal information page in the Continuing Education section.)
 - You must be scanned at the door of each session.
- An email notification will be sent approximately six weeks post show with instructions to download your certificates of completion.
- Attendee will download or print earned certificates and keep on file for your own records.
